The wonderberry is touted by E. B. Horning as being the real thing, and he advises others to take up its culture. For pies this fruit is hard to beat. Mr. Horning and Mr. McDonald were successful growers of the wonderberry this year. This berry grows on vines, and must be planted each year, growing from the seed.

Commissioner Geo. Smith has built a nice two-story residence near the old S. P. depot. While the structure is not wonderful in appearance, it is built on good architectural lines, is painted to good advantage (as many are not) and helps that end of town quite a little. This place is rented to Lakeview people at \$20 per month. The place will be occupied in a few days.

For sale or Rent—Eight-room house, with out-buildings, convenient to College. 16th & Van Buran. 9-17-tf

Speaking of pleasant appearing properties, the Rowley home, just across the railroad on the Philomath road, looks as cheerful as any. That place has a good lawn, a tremendous quantity of flowers about it, a cement walk about the place and a well kept park outside the walk. The place is in good trim and shows loving care and attention. Places of this kind make the passerby feel rather pleased and proud and they must be a source of much pleasure to the owners.

Sporting goods, bicycles and fishing tackle at Heater & Harrington's. 9-3-tf.

Since the laying of cement walks and curbs and making of fine yard lawns and parking on West Jefferson, just across the railroad, men driving cattle have twice permitted their animals to race across these lawns. At another time a fool bicyclist had little enough sense to ride his wheel across the lawn, then in process of making. The bicyclist should have been hung by his thumbs, and the cattlemen should have been prosecuted. The council should see to it that cattle are driven across the city over streets where there is the least danger of them spoiling the work being done by people striving to make the city take on a better appearance.

Trunks and suit cases at Kline's. 9-20-tf

Those who have not made a trip around the outskirts of the city recently will meet with a genuine surprise when they do visit the suburban sections. Many new houses are either just finished or being built, and few of these are small or indifferent looking places of abode. The building immediately south, west and north of the college grounds is much more strenuous than most people will be willing to believe until they have been there. It is also interesting to note that several small stores have been added to the life of the suburban districts. A rather attractive grocery store has been put in on Monroe just opposite Park Terrace, and on Monroe, at Eleventh, another grocery, confectionery and stationery store has been started up. Job's addition has its grocery, a good meat shop, and a

small store beside it, and there is a small store south of the college grounds. Corvallis is spreading out and in a short time will be grown entirely away from the town. People who do not get out occasionally to take a look.

FURNISHED ROOMS—suitable for light housekeeping, with all modern conveniences. 623 South 4th street, phone 3120. 9-20-6

"Uncle Josh Perkins," the big rural play, which is coming to the opera house on Thursday, Sept. 23, is replete with smiles and thrills and by some is declared one of the most life-like dramatic offerings, true to all the scenes it attempts to depict and with vivid types of characters life-like and natural in presentation. The four acts are equally divided between New York City and Vermont, the play centering about the efforts of a sharp New York attorney to marry Edith Marston, an heiress, for her money. How the plot is foiled by "Uncle Josh" and the happy termination make a seeable play, which will doubtless attract an audience to the opera house next Thursday night. Specialties will be presented during the various acts of the drama. Reserved seats on sale at Graham & Wortham's. Prices 25, 50 and 75.

Make Kline's your resting place when down town. Ladies' rest room second floor. 9-20-tf

Mrs. Shepard, recent arrival at the Brenner home, pays the Willamette valley and Corvallis a real compliment. She is one of those Kansans who still believes in Kansas. She believes her state to be the greatest of all states and is so full of Kansas that she can see little worth while at any other place. In a trip through the intermountain region and on to Seattle, Mrs. Shepard was sorely disappointed. She makes constant comparison, and at all times Kansas loomed up in such a way that she really wished she had stayed at home. Idaho and Washington states looked worthless to her and even though Corvallis friends urged her to come here, she did so with great reluctance. She is now glad that she came. Portland looks good to her, and the Willamette valley is the only stretch of country she has seen that compares favorably with her own dear Kansas. Mrs. Shepard will not admit that this section is any better but she does say that it looks as satisfactory. That is a very great admission for one so loyal to another state, and it adds full force to every assertion that the Willamette valley is indeed a garden spot.

Phonographs and all the newest records at Heater & Harrington's. 9-3-tf.

Fifteen additional faculty members have been added to O. A. C.'s staff this year, making a total of 93 for the ensuing year. Two of the men to be added to the faculty have been principals of two of Oregon's state normal schools. Professor A. L. Boquet, who formerly taught here and has been on a leave of absence for a year and half, taking graduate work in the Massachusetts Agricultural college; George C. Matthews, oratory and debate; Mrs. G. E. McElfresh, English; Miss Anna G. Saby, Spanish and Latin; Fletcher A. Gould, civil engineering. Milo O. Daughters, chemistry; W. S. French, mining; R. H.
